## **Water Restored to Residents Affected by Water Main Break on Route 50 East**

FALLS CHURCH, VA. – The City's Public Works crews restored water to the 40 single family homes who were without water due to a 12-inch water main break at the intersection of Route 50 East and Graham Road and Wayne Road.

The lane that was closed along Route 50 going eastbound to repair the water main break is being restored and all lanes will be open to traffic by this evening's rush hour.
